Danny with grandchildren—Joey and Colleen Walton.

"Your lifetime coincides with particular baseball years that fill your mentality with images of the players and events in the unfolding tapestry, the annual pageantry, contemporary with your awareness." . . . Baseball the Beautiful by Marvin Cohen.

Danny Murtaugh

There were some people who figured that Danny Murtaugh would not be back in 1975. Joe Brown had proclaimed him to be the Buc skipper "for as long as he wants the job," but there were many who were surprised when Danny again elected the hard-backed rocking chair in his Three Rivers Stadium office over the plush rocker in his Woodlyn, Pennsylvania living room. Already Danny holds the record for the most different times a manager has led the same team (4) and he ranks 16th in winning percentage on the All-Time list of major league managers with 10 or more years of experience. Under his deft handling and manipulation of players, the Pirates have won two World Championships-in 1960 against the Yankees and in 1971 against the Orioles. Danny feels his team has all the ingredients to go all the way again this year-one of the reasons the Irishman decided to give it another shot in 1975.

"The main job of a manager today is handling his men. Every team has a little different 'personality'. Players are different today. In the 'old days' we had players who were content to sit on the bench until they were called upon to pinch-hit, pinch-run, relieve or go into the game for defensive purposes. Today everybody wants to be a regular. As far as I know, the rule book still says I can only play 9 men at a time. So I have about 10 fellows in the dugout or in the bullpen who are frequently unhappy about not playing more often.

A manager today has to have a lot of patience . . . and good coaches . . . and be smart enough to utilize all his club's assets. By nature, he must be critical, because part of being a good manager is being able to spot trouble areas and take the necessary steps to correct them. The team making the fewest mistakes usually wins.

My son, Tim, is managing Shreveport in the AA Texas League. We talk a lot about managing back home in the offseason, but there's really very little I can do to help him. Experience is the best (and only) teacher."

Danny Murtaugh

Coaches

"Belonging to something. To go up and down, along with the rise and fall of the fortunes of a team that's yours-for better or for worse, through thick and thin. You stick by it, and what happens to it becomes part of your life." . . . Baseball the Beautiful by Marvin Cohen.

There are few in baseball who can match Don Osborn's experience in the game to which he has given so many years of dedicated service. The Pirate pitching coach began his pro career with Sacramento in the Pacific Coast League in 1929, and he hurled in the minors for 21 years. Don followed

Don Leppert

Don Osborn

his active career with 12 more years as a minor league manager. He joined the Pittsburgh organization in 1958, and he has also served as a scout and as a managerial consultant.

Don Leppert returns for his eighth season as a Pirate coach. A former catcher with the Pirates and the Washington Senators, the burly Hoosier is one of only a few to have homered in his first major league at-bat. He hit three consecutive homeruns in D.C.

Jose Pagan

Stadium in 1963 when he was named to the All-Star squad. Don has been a first base coach; and this year, as in 1974, he will be in charge of the Bucs' bullpen. An avid hunter and fisherman. "Lep" recently bought a home in the Pittsburgh area.

A stalwart on the Pirate teams in the 50's and early 60's when he three times hit over .300, Bob Skinner returned in 1974 as the Bucs' third base coach and hitting instructor. Following his playing career in Pittsburgh, Bob saw action with the Reds and Cardinals prior to a three year stint as manager with San Diego in the Pacific Coast League and then with the Philadelphia Phillies. More recently he was a coach with the Padres before joining Danny Murtaugh's staff.

First base coach Jose Pagan is largely responsible for the rapid development of Pirate infielders Rennie Stennett, Frank Taveras and Mario Mendoza. A veteran infielder-outfielder with the Giants, Pirates and Phillies, Pagan also coached briefly for the Phillies in the final months of the 1973 campaign before joining the Pirate staff in 1974. His eighth inning double in the final game of the '71 World Series scored Willie Stargell from first with the decisive Series tally.

Dan Galbreath

The Owners

"Like a tree, baseball is a thing of dignity." . . . Baseball the Beautiful by Marvin Cohen.

The Galbreaths and Tom Johnson leave the direction of their ballclub to Joe L. Brown and Danny Murtaugh; but make no mistake about it, they are emotionally involved. The Pirates are indeed fortunate to have their destiny in the hands of such responsible sportsmen who sincerely care about Pittsburgh,

John Galbreath

about the fans and about the Pirates, collectively and individually.

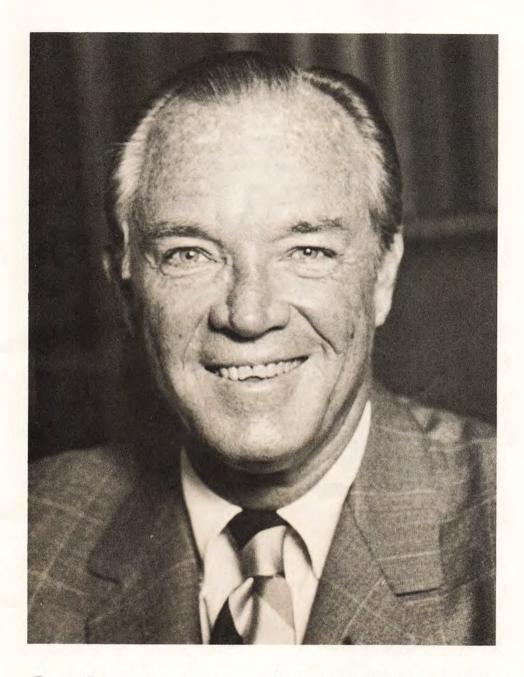

Their association with the Pirates dates back to 1946. Despite good games and bad games, despite good years and lean years, they have never swerved from their avowed goal of providing Pittsburgh with a winning team. Their ultimate goal has been achieved twice, as attested by the 1960 and the 1971 World Championship pennants on display at Three Rivers Stadium.

Chairman of the Board, John Galbreath and President, Dan Galbreath operate the John W. Galbreath Realty Company in Columbus, Ohio. Their

Tom Johnson

reputation in the sporting world extends to yet another area—that of horseracing. Their Darby Dan Farm has produced two Kentucky Derby winners—Chateaugay in 1963 and Proud Clarion in 1967 and more recently, Little Current, winner of both the Preakness and the Belmont in 1974. Another outstanding horse, Roberto, named after Roberto Clemente, won the 1972 English Derby.

Tom Johnson, a noted Pittsburgh attorney and the club's Vice President and Secretary, negotiates the ballclub's radio and television contracts. His two sons, Jim and Tom, are also directors of the Pirates.

Joe L. Brown

"The achievement of excellence is a thrill to hear about, read about, or watch—whether as a short-inning performance, or in a game span, or in a whole season or a career." ... Baseball the Beautiful by Marvin Cohen.

Four Eastern Division Titles in the last five years and a World Championship to boot is an enviable record, but the architect of the Pirate team is never satisfied. In the 19 years he has been General Manager since succeeding Branch Rickey following the 1955 season, Joe L. Brown's Pirate teams have finished in the first division 12 times, adding a 1960 World Championship to the aforementioned '71 title. Melding the products of his farm system with players obtained by trade and purchase under the supervision of his closest friend Danny Murtaugh, Joe L. Brown has built an explosive ballclub, a blend of enthusiastic youth and experienced veterans, of players with speed and players with versatility. He is confident he has another pennant winner in 1975.

"The most satisfying part of a General Manager's job is being associated

with success. I'm not only referring to team success-the winning of a championship; but it is also satisfying to be associated with individual success, with persons who are outstanding in their field. It is intensely gratifying to work with people of the caliber of Willie Stargell, Bill Mazeroski and Roberto Clemente - people recognized as dedicated professionals in their own occupation. This is particularly true when these people have come up through your own organization, all the way from high school . . . to see them build and develop as they progress. I am extremely fortunate to work for and with such good people."

Willie Stargell

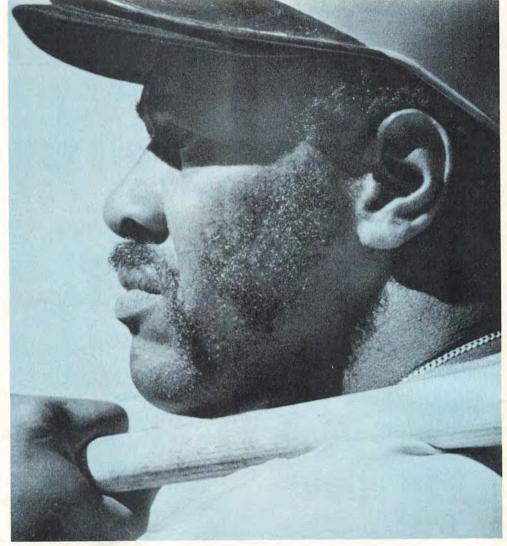

Firstbaseman . . . 6-2½ . . . 228 . . . Born on March 6, 1941 in Earlsboro, Oklahoma . . . Resides in Pittsburgh . . . Married Dolores Parker and has three children, Precious (12), Wilver Jr. (7), and Kelli Loraine (4) . . . Bats left . . . Throws left.

"In 12 years he has hit 346 homeruns and nobody, not Stretch or Richie or Hank and probably not the Babe himself, ever consistently powered baseballs farther than Willie Stargell." . . . Phil Musick, Pittsburgh Press.

The Pirates' all-time home run king hit for power and average in 1974. His .301 percentage boosted his lifetime batting figure to .283 and his 25 homeruns and 37 doubles were major factors in his 96 RBI's, falling just four short of four consecutive 100+ RBI seasons. Willie has the ability to be the first Pirate to ever win Baseball's coveted Triple Crown.

"I enjoy playing in the so-called "pressure months" of September and October when the pennant is on the line, because all the things you've worked so hard for all summer long are finally there for the taking. You're tired, you're sore and often you get into towns late; but you have to force yourself to scratch and claw and take advantage of every situation (in good sportsmanship, of course). Then, when it's all over, you can honestly say to yourself that you've done your very best. That to me is the real excitement of the game of baseball -to be able to come through when the chips are down."

Frank Taveras

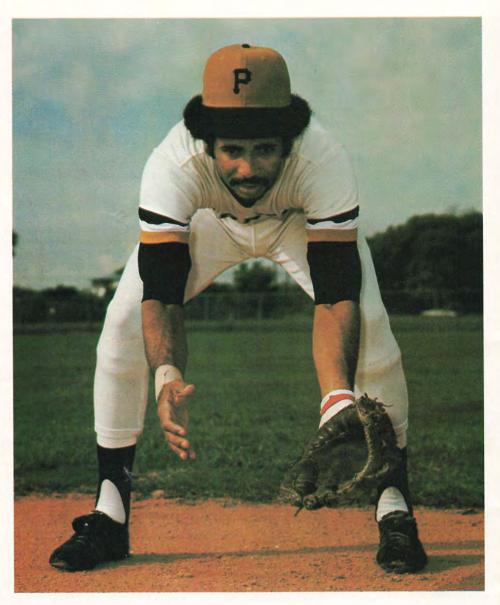

Shortstop . . . 6-0 . . . 160 . . . Born on December 24, 1950 in Villa Vasquez, Dominican Republic . . . Resides in Santiago, Dominican Republic . . . Married (wife Sotera) and has a son, Frank Jr. (6 mo.) . . . Bats right . . . Throws right.

"The Pirates have come up with a young man who has been doing the job at short-stop, and a surprisingly good job with the bat." . . . Charley Feeney, Pittsburgh Post-Gazette.

Frank Taveras was the regular Pirate shortstop for most of the second half of the '74 season. Possessing excellent range and a strong arm, his biggest problem was a lack of consistency. Frank is a slap-hitter who was especially effective last season in situations with runners on third with less than 2 out. He scored them 58% of the time. The slight Dominican has good speed and an aggressiveness on the bases. His 13 steals (in 17 attempts) ranked second on the ballclub.

"There's a big difference between major league baseball and minor league baseball. Here in the big leagues the stadiums are so much bigger and better. There is lots of good pitching. Pitchers up here have a lot of experience and so much more control of their pitches. Here the lights are good, the field is good, the money is so much better. In the major leagues we fly for a couple of hours instead of riding a bus for 7 or 10. I'm so happy to be a big leaguer, and I hope to be up here for a long, long time."

Mario Mendoza

Shortstop . . . 5-11 . . . 177 . . . Born on December 26, 1950 in Chihuahua, Mexico . . . Resides in Chihuahua . . Single . . . Bats right . . . Throws right.

"He handles ground balls with the ease that Joe DiMaggio caught fly balls." . . . Charley Feeney, Pittsburgh Post-Gazette.

Mario Mendoza made the big jump from AA ball to the major leagues with only two games of AAA ball sandwiched in between. He played on a regular basis for the Pirates at times during 1974 and on several occasions he brought the crowd to its feet with his spectacular plays in the field. His fluid motion and accurate arm endeared him to Pirate fans, and he played errorless ball in his last 33 games in 1974.

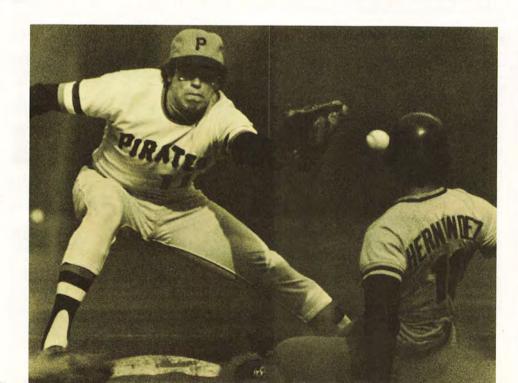

"I am surprised and very happy to be playing in the major leagues so soon, since I played only two games in AAA ball. Everything is 'super' in the big leagues—the kind of players here, the ball parks, everything. I like the artificial playing surfaces—you don't get too many bad bounces and it's quicker and easier to play on.

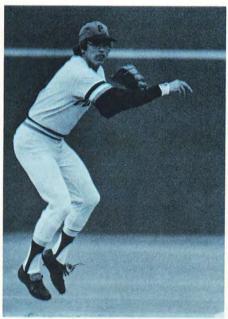

I enjoy my reputation as a good defensive shortstop. When people com-

pliment me on it I feel more confident. Everyday I try to do the best I can. I take a lot of ground balls in practice, even if I'm not in the starting lineup;

and I try to get all the batting practice I can. I don't model myself after any-body else—I just try to be Mario Mendoza."

Al Oliver

Centerfielder . . . 6-1 . . . 195 . . . Born on October 14, 1946 in Portsmouth, Ohio . . . Resides in Pittsburgh . . . Married Donna Allen on April 8, 1970 and has a daughter, Felisa (2) . . . Bats left . . . Throws left.

"One gets the distinct impression that the word 'mediocre' is not in his vocabulary" ... Ed Rose, Beaver County Times.
"Just one helluva good hitter" ... Sparky Anderson, Manager, Cincinnati Reds.

Al Oliver enjoyed his finest season in 1974. He was runner-up to Atlanta's Ralph Garr for the National League batting title with .321; and he was fourth in the league in hits (198), and second in doubles (38) and triples (12). To further emphasize his consistency, Al at one point hit safely in 56 of 60 games, and for the season, in 82% of his 147 games played.

"Self-confidence is something I was born with. My parents instilled it in me and I think it's something you have to have in order to be a successful major league player-or to be successful in life, period. In the game of baseball there's a lot of competition. I've seen a lot of guys who had loads of ability but they lacked self-confidence and they only stayed around maybe 3-4 years. If they only believed in themselves they could have come back after a bad day and had a good day. In my case, I have a tendency to hit a lot of line drives right at the opposition and when the season has ended. I'm usually hitting somewhere around .290; whereas, with any luck at all, I should have been hitting .330. It would be easy to become upset, but through self-confidence I'm still waiting for that year when everything will fall into place for me and I can win the batting championship."

Al Oliver slides across home plate with the run that gave the Pirates the '74 Eastern Division title.

We're expanding raw steel production,

Aliquippa, Pennsylvania — "One million more tons of steel a year. That's the big news in J&L's Aliquippa Works' expansion. \$200 million will be spent to increase raw steel and finished product capabilities. The expansion will increase the Works' steelmaking ability to almost 5 million tons a year, making it one of the largest integrated steel producers in Pennsylvania."

"Hoot" Meyer Works Manager, Aliquippa Works Aliquippa, Pennsylvania

increasing our stainless capacity,

Louisville, Ohio — "Improvements in ingot and slab processing facilities at our Warren, Michigan, plant and a new cold annealing and pickling line at our Louisville, Ohio, plant are just part of this \$25 million program. Modernization of Louisville's hot annealing and pickling line and rebuilding the plant's 54-inch, two-high temper mill

rebuilding the plant's 54-inch, two-high temp are other features of the program to increase production of stainless flat rolled products."

John McCarthy Plant Manager Louisville, Ohio

Claude Kronk Manager – Stainless & Strip Products Pittsburgh, Pennsylvania

and making more oil country pipe.

Houston, Texas—"Make more oil country pipe available where it's needed most. That's how J&L responds to the growing needs of oil operators. From Pittsburgh to Houston, J&L people are hard at work making substantial, additional tonnages of pipe available. And making sure it gets distributed equitably."

John Leimbrook District Sales Manager Houston, Texas Bud Kymen

Field Engineer – Tubular Products Houston, Texas

To help you make the most of steel.

Dave Augustine

Outfielder . . . 6-2 . . . 172 . . . Born on November 28, 1949 in Follansbee, West Virginia . . . Resides in Groveport, Ohio . . . Married (wife Sandra) and has one child . . . Bats right . . . Throws right.

"I'm the best defensive outfielder in camp," boasted Dave Augustine during spring training, and it could be that he was right. Possessed with a fine arm and the quickness to get a good jump on flyballs, Dave may be the defensive outfielder Danny Murtaugh needs to complement his hard hitting starting trio. His fine speed also enhances his value to the ball club as a pinch-runner.

Dave is not a complete newcomer to the majors—he saw limited action with the Bucs the past two seasons.

"Baseball goes on, essentially unaltered, though the nation itself goes through violent historical upheavals and the times are always changing." . . . Baseball the Beautiful by Marvin Cohen.

Paul Popovich

Infielder . . . 6-0 . . . 175 . . . Born on August 18, 1940 in Flemington, W. Va. . . . Resides in Northbrook, III. . . . Married Susan Hutchins . . . Has one son, Paul Jason (3) . . . Bats left and right . . . Throws right.

"Team 'balance' consists of blending different types and skills, so that individual weaknesses are not so glaring in the overall combination, which has 'enough of everything' to be a formidable aggregate—a team." . . . Baseball the Beautiful by Marvin Cohen.

In addition to his utility value and his pinch-hitting prowess, Paul Popovich lends a professional class to the Pirate bench. The popular West Virginian was acquired from the Chicago Cubs for pitcher Tom Dettore just before Opening Day last season and the veteran infielder can play second, short and third. A switch-hitter, Paul set a Championship Series record in 1974 with 3 pinch-hits in the Play-offs vs. Los Angeles, and including the Play-offs he had 8 hits in his last 15 appearances as a pinch-hitter.

Jim Rooker

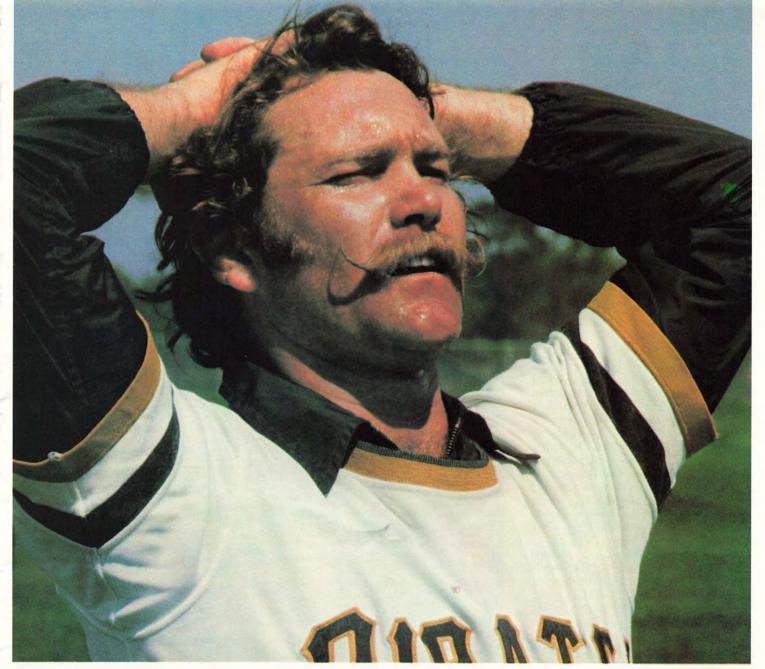

Pitcher . . . 6-0 . . . 201 . . . Born on September 23, 1942 in Lakeview, Oregon . . . Resides in Overland Park, Kansas . . . Married (wife Betty) and has two children, David (14) and Stephanie (10) . . . Bats right . . . Throws left.

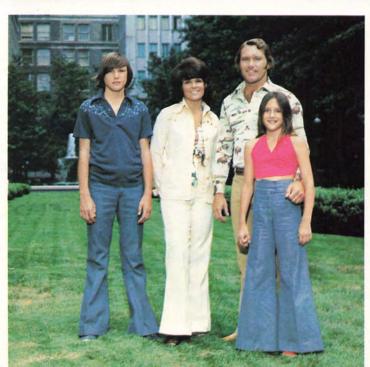

"A team should have spirit and show it. I like to see guys biting and scratching and kicking to win instead of waiting for something to happen" . . . Jim Rooker.

Jim Rooker won 15 and lost 11 for the 1974 Pirates, and in the process, earned widespread acclaim for his intense competiveness. His 2.78 ERA was the lowest on the staff among the starters and his 15 complete games ranked fourth among National League pitchers. Jim is another Pirate hurler who brings his bat with him to the ballpark, as he hit .305 last season. 1974 was by far Jim's finest in his major league career.

"My wife, Betty, is an excellent seamstress and she makes the majority of my clothes-from my shirts and pants to a jeans and jacket outfit or a matching coat and pants. It's especially nice because I may see something in a store or in a magazine that is attractive although I may not necessarily like the color or patterns used. I can select the material and we will get together and make our own design out of it, whether it's a special stitching in the material itself or maybe the way we use the pockets in the front or back, or maybe no pockets at all. I save a lot of money and I get exactly the clothes I want. I just give her a couple of ideas and she takes it from there and does a fantastic job. In fact, she even altered my uniform. It was too loose and baggy and didn't fit me properly. I think that a ballplayer has an image to project, and that it's important to feel comfortable and to look one's best, both on and off the field. People like to see a ballplayer dressed neatly."

Rennie Stennett

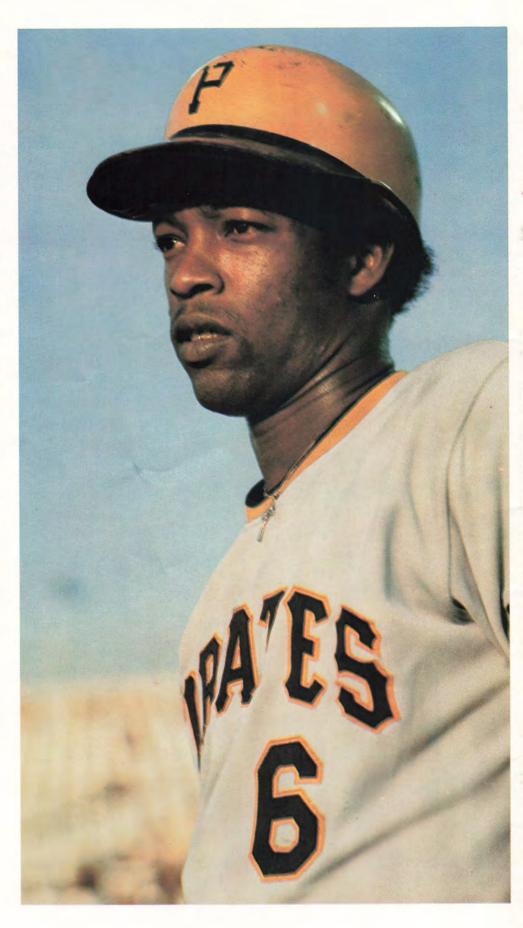

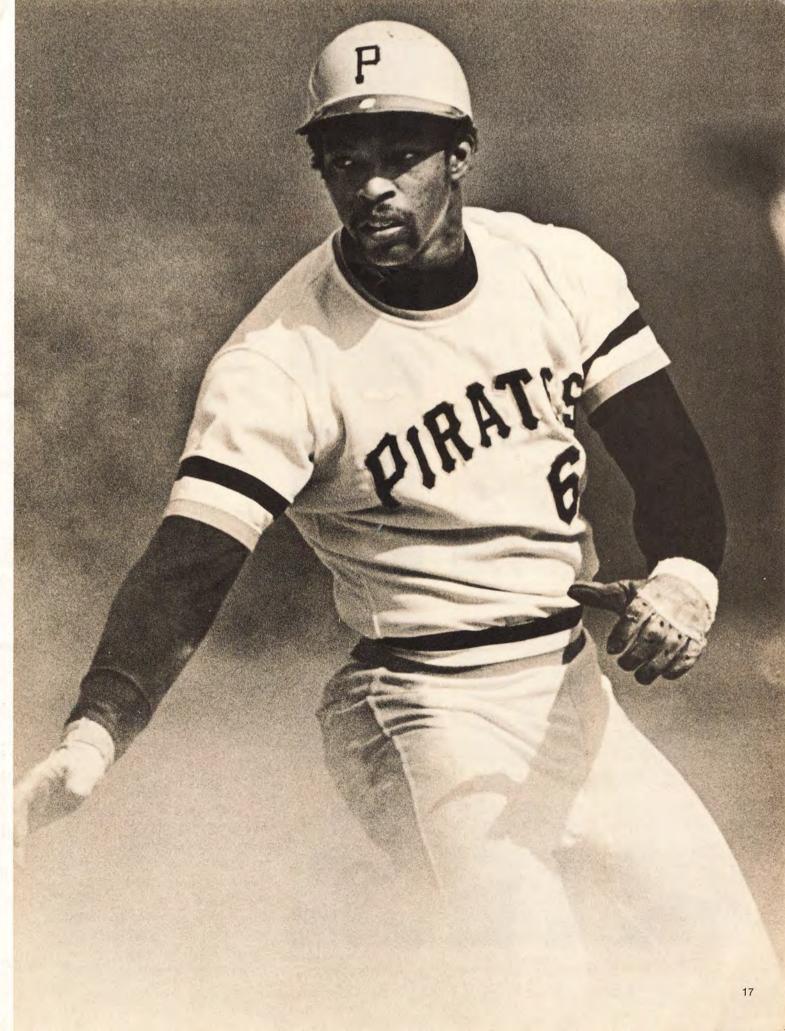

Second Baseman . . . 5-11 . . . 175 . . . Born on April 5, 1951 in Colon, Panama . . . Resides in Pittsburgh . . . Married . . . Bats right . . . Throws right.

"And if he isn't right now, it won't be too long until Rennie Stennett is recognized as the best fielder at his position in all of baseball" . . . Luke Quay, McKeesport (Pa.) Daily News.

In 1974 Rennie Stennett proved that he could "do it all." He had 196 hits—more than any other Pirate second baseman ever; and between July 25 and September 24 (59 games) he handled 408 chances without an error, falling just ten short of Ken Hubbs' National League record for second basemen. He led N.L. second basemen in putouts and was second in assists and double plays. With a year of experience as a regular under his belt, Rennie should solidify the Pirate infield for many years to come.

"I run hard all the time because I want to win every game. I know this is impossible, but everytime I hit the ball, regardless of where I hit it, I am going hard to first base. If I don't get a hit, perhaps the other guy will make an error. I feel that if we always hustle, our pitcher will be more relaxed. I want him to feel that I am out there to help him anyway I can. I remember when I was a small boy about 14, I used to play with guys back home in the streets in Panama. Sometimes the ball would be hit past the outfielder on my team and he would just walk after the ball. I used to get so mad I would throw him off the team. My friends would criticize me for getting so mad, but I just like to see a guy hustle and try. That's the only way to play the game."

Infielder . . . 6-2 . . . 190 . . . Born on December 15, 1946 in Pittsburgh, Pennsylvania . . . Resides in Pittsburgh . . . Married Betty Falconio on August 16, 1969 . . . Bats right . . . Throws right.

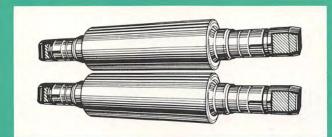

Art Howe is another local boy on the Pirate roster. The Shaler High School grad joined the Pirates mid-way through the '74 season after a torrid start at Charleston. In his first 71 trips to the plate for the Charlies, he had 17 extra base hits and a .451 batting average; and in one stretch of 12 consecutive at bats he had 11 extra base blows. The Pirates were also highly pleased with the reports of Art's defensive play at third base with Bayamon in the Puerto Rican Winter League.

"The assurance that there'll be a definite ending—a result, a conclusion—is a strong factor in the psychology underlying a baseball game." . . . Baseball the Beautiful by Marvin Cohen.

Young Faces in the Crowd

Miguel Dilone

Willie Randolph

Outfielder Ed Ott, a hard-nosed competitor, spent almost three weeks on the Pittsburgh bench in the middle of the '74 season as a replacement for injured Dave Parker. This inactivity, plus a late-season knee injury which was corrected by surgery in the Fall, affected his statistical record at Charleston, but he still led all International League outfielders with 21 as-

sists-9 more than his closest competitor, while hitting .265 with 14 homeruns. A left-handed hitter with linedrive power, Ed is also working as a catcher, a position the Pirates feel may eventually be his strongest.

22-year old Bill Flowers played alongside Ed Ott in the Charleston outfield last season and led the League's outfielders in fielding with a percentage of .994. One of baseball's finest runners, Bill stole 29 bases while hitting. 275, including 16 doubles, 8 triples and 7 homeruns.

Statistics reveal Miguel Dilone's potential. In just 320 games in 21/2 years, the 20-year old outfielder has stolen 223 bases. In 1974 he was runner-up for

It's A Great Game, Anyway You Look At It.

By Frank Dolson of The Philadelphia Evening Bulletin

Baseball. There is no game like it. No game as beautifully simple, as magnificently complex. It is a game of anticipation, of move and countermove-a cerebral game, an absorbing game.

Baseball is so many things to so many people. The memories it creates are so vivid, so lasting. Incredible . . . ridiculous . . . but the details of games played a quarter of a century ago remain etched in your mind.

Why should anybody remember the ninth inning of a World Series game he didn't see played in a ball park that no longer exists? Why should he remember rushing home from school, turning on the radio and hearing Red Barber describe Bill Bevens' bid for a no-hitter against the Dodgers?

Twenty-seven years later and the drama still seems so fresh, so alive. The two-out steal of second by Al Gionfriddo . . . the decision by Yankee manager Bucky Harris to put Pete Reiser on base. For God's sake, Bucky, you CAN'T put the winning run on base ...

Pinch-hitter Cookie Lavagetto swings and Barber's voice rises above the crowd. It's a long drive to right . . .

Jim Sadowski

Jim Minshall

Craig Reynolds

the Carolina League batting title with .333 and he set an all-time league record with 85 steals.

Willie Randolph has surprising power for a 5-11, 160 pounder. A steady fielder, he excels at making the pivot on the double play and he possesses exceptional base running instincts. Willie is a diligent worker and at the

tender age of 20, is one of the Pirates' top young infield prospects.

Jim Sadowski and Jim Minshall both have an excellent chance to pitch for the Pirates in 1975. Sadowski has outstanding ability and he improved tremendously in Winter Baseball in Venezuela. Minshall, a 6'6", 215 pound right-hander, appeared in 5 National

League games coming down the stretch with Pittsburgh last season, and Danny Murtaugh and his staff are very high on him. Combining his mound record at Thetford Mines and Charleston, where he split the season, Jim appeared in 45 games, all in relief, won 8 and lost 3, allowed just 34 hits in 62 innings and struck out 82 batters.

(continued)

Henrich is going back...back. Suddenly, the noise is deafening. "Here comes the tying run," Barber is shouting, "and here comes the winning run..." And there goes the radio.

Why should anyone remember that awful, sinking feeling when those words—and those runs—hit home?

Why should a man remember in 1974 that he was pacing the floor of a fraternity house on Woodland Av. in 1951 when Bobby Thomson hit THE home run against Ralph Branca; that he was squirming in a box seat behind the plate at old Forbes Field when Bill Mazeroski hit THE home run against Ralph Terry in 1960; that he was covering a Penn-Cornell football game in Ithaca, N.Y., with a portable radio pressed against his ear when Mickey Mantle hit Barney Schultz' first pitch of the ninth inning into the upper right field seats at Yankee Stadium to win the third game of the '64 World Series against the Cardinals?

Because baseball is a game you remember, that's why.

It's a game in which the good plays and the bad—are there for the guy in the last row of the upper deck to see. A baseball team blows a tough one and the manager can't say, "I won't know what happened until I look at the films tomorrow." He knows what happened. Everybody knows what happened. That's the beauty of the game.

There's no place to hide on a baseball field. If a guard misses a block in football, who knows? If the left fielder misses a line drive in baseball, we all know.

Baseball is a game that makes heroic figures out of mediocre players, stiffs out of superstars. Don Larsen, a most imperfect pitcher, hurls a perfect World Series game against the Dodgers in '56, three days after blowing a six-run lead in the second inning. Ted Williams, the greatest hitter of the last three decades, gets only five hits—all singles—in 25 at-bats in his only World Series.

That's the fascinating thing about baseball. On one hand, the statistics are so precise, the performances are so easily measured; on the other hand, it is all so unpredictable.

No game lends itself to discussion, to controversy, to disagreement like baseball. The game ends, the fun goes on...and on. Watch an exceptional hockey game, or basketball game, and you run out of things to say about it by the third post-game beer. Baseball, you go on all night if you have the stamina. It's the greatest talking game ever invented.

It's a game where the "right" move often backfires, where the "wrong" move often works, and where everybody in the stands is convinced he knows as much as the guy who has to make the decisions. Maybe more.

Chico Ruiz COULDN'T try to steal home with two out and Frank Robinson at bat in the sixth inning of a scoreless game against the Phillies in September of '64. But he did try . . . and he made it . . . and the 1-0 defeat started the Phillies on the way out of the pennant race.

Ralph Houk COULDN'T let Ralph Terry pitch to Willie McCovey with first base open, the tying and winning runs in scoring position and two out in the ninth inning of the seventh game of the '62 World Series. But he did let him . . . and McCovey's line drive landed in Bobby Richardson's glove to seal a 1-0 victory.

Young Faces in the Crowd (continued)

John Candelaria

John Morlan

Ken Macha

Shortstop **Craig Reynolds**, the Pirates #1 draft in June, 1971 has fine all-around ability at the age of 22. He hit .282 at Thetford Mines in "AA" ball last season and .336 after being promoted to the Charleston Charlies.

Although only 21, **John Candelaria** pitches like a veteran. A fine competitor, he has good command of his breaking pitches. John has an outstanding

arm and he is very close to attaining major league status.

John Morlan was used exclusively as a long reliever for the Bucs in 1974, and his 39 games were the most he had ever pitched in a single season of his professional career. Elementary teaching duties had curtailed his baseball activity during his first four seasons in pro-ball (1969-72). John began as an

outfielder and did not begin pitching until 1971. He won a job with the Pirates in 1973 on the basis of an impressive 11-5 record with the Charlies.

Ken Macha is one of the Pirates' outstanding young prospects. The 24-year-old Pittsburgher led the AA Eastern League in batting last year with a .345 average, hitting 21 homeruns, driving in 100 and stealing 22 bases.

It's A Great Game, Anyway You Look At It. (continued)

Conversation pieces. Arguable moves. The game is filled with them. We all have an opinion. We all know when to bunt, when to pinch-hit, when to go to the bullpen.

The game's critics say it isn't rough enough or fast enough; there isn't the violence of football, the speed of hockey, the slam-bang viciousness of today's world. What they fail to understand is that's the game's virtue, not its fault. A baseball fan isn't on his feet screaming for blood from the first minute of the game to the last, nor does he want to be. He goes to the ball park to relax as well as to cheer, to escape the go-go-go of today's world, rather than to be a part of it.

Baseball is NOT the fastest game in the world. Thank God.

It is a game that gives us a chance to play along, to think, to anticipate, to enjoy. Best of all perhaps, it's a game that isn't controlled by the hands of a clock. You can't fall on the ball while the final seconds tick off in a baseball game. You can't dribble away time or pass away time or do any of the things that are common practice in all those other games.

In baseball, time is measured in outs, not minutes. So what if you're three down with two out and two strikes in the ninth inning? There's still a chance. Hit enough line drives, get enough men on base and time will stand still.

There's no game like baseball. No game in the world. It is a team game, but it is also man against man, the pitcher and the batter, one on one, with everybody watching. Think of the priceless duels. Koufax against Mays. Gibson against Aaron. Feller against Williams. Ford against Kaline. Spahn against Musial. Carlton against Bench.

Can't you still see Roberts and Di-Maggio battling each other in the second game of the '50 World Series? Four times they met in the first nine innings...and four times Robbie won clearcut decisions. Then the fifth time, in the 10th inning, DiMaggio won.

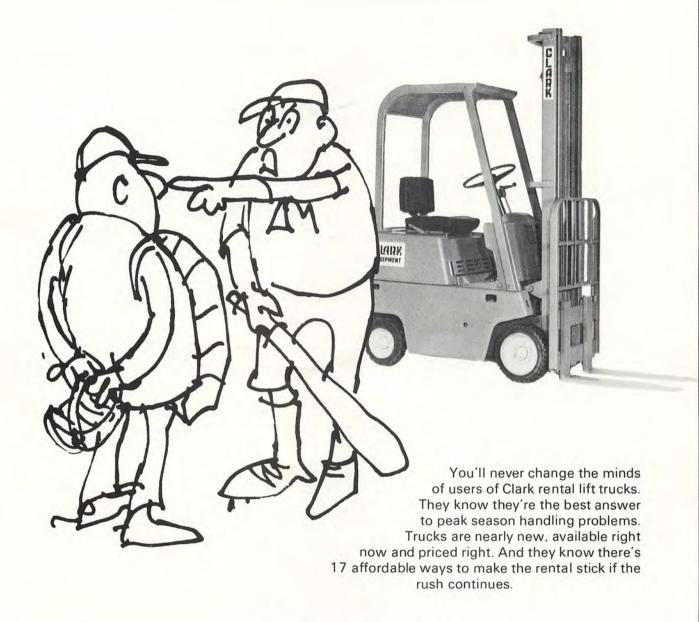

That's the way baseball is: a stiff this minute, a hero the next. It's Yogi Berra settling under a Ted Williams' pop foul to the right of the plate with two out in the ninth inning and Allie Reynolds pitching a no-hit game ... and dropping it; then, a pitch later, catching a more difficult pop foul. It's Pete Rose striking out four times against you tonight, then getting you tomorrow night. It's Larry Bowa popping up with two men on base, then saving two runs with a diving stop an inning later. It's Greg Luzinski hitting one 450 feet this time, missing the third strike that time. It's Gene Mauch thinking up something nobody ever thought up before-and having it backfire.

Nothing's sure in this game. Line drives are caught. Bloopers aren't. Bad fielders make great plays. Great fielders make errors. Managers do the "right" thing and win, the "wrong" thing and lose.

And it's all there, out in the open, for everybody to see... and debate ... and remember.

Baseball. There is no game like it.

A Willie Montanez line drive fractures Dock's hand on September 11.

Dock Ellis

Pitcher . . . 6-3 . . . 195 . . . Born on March 11, 1945 in Los Angeles, California . . . Resides in Pittsburgh . . . Has a daughter, Shangaleza Talwanga (5) . . . Bats left and right . . . Throws right.

"Dock Ellis is an individual who likes to get involved. He has a fertile mind and is intrigued by new ideas" . . . Milt Richman, Sports Editor, U.P.I.

Dock was possibly pitching the best ball of his career when a Willie Montanez line drive fractured his right hand on September 11, shelving Dock for the remainder of the season. He had won 9 of 10 games at the time and his ERA over his last ten outings in 1974 was an amazing 1.87.

"I have the reputation of 'putting people on' or 'pulling their chain' so to speak, so people are always asking me, 'What are you really like?' Well, I am a music lover-I like to listen to all types of music, depending upon the mood I'm in. I have found it a great way to relax. I consider myself a real gourmet cook. I collect cook books and my specialty is preparing various fish dishes. Travel is another hobby of mine. It's a good way to relax and to learn things about the world while meeting interesting people. This past winter, for instance, I traveled all over the state of Colorado. I have always tried to dress well, but I'm much more conservative now than I used to be. I guess you could say that I've been a 'mod' dresser in the past, but lately I've purchased more business-type suits. I know the Pirates place a lot of confidence in me and I'm going to work harder than ever this year to live up to Joe Brown's (and Al Oliver's) expectations. When my playing days are over don't be surprised if I go back to school for a law degree. In fact, you may find me reading law books in the clubhouse before the game.

Bob Robertson

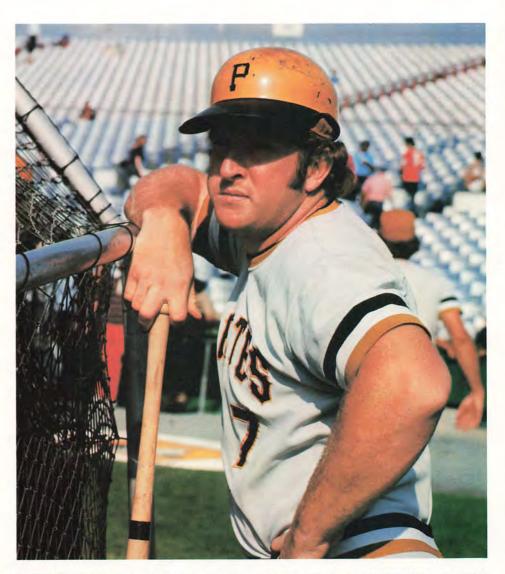

Firstbaseman . . . 6-1 . . . 212 . . . Born on October 2, 1946 in Frostburg, Maryland . . . Resides in Cumberland, Maryland . . . Married Carolyn Lee Robinette on February 11, 1967 and has a daughter, Geneen Lee (4) . . . Bats right . . . Throws right.

"If I can help by platooning at first base, that's fine with me. Winning is supposed to be a team effort, and you spell that T-E-A-M. There's no 'I' in the word. . . . Bob Robertson.

Bob Robertson appeared in only 90 games for the Pirates in 1974—the fewest of his major league career. But he averaged one home run every 14.7 times at bat—the best home run ratio in baseball, and one RBI every 4.9 times he came to the plate. He also had nine game-winning hits and two pinch homers.

"It's an entirely different world once a baseball player steps inside the white lines. At that point, a ballplayer has to be 'all business'. Once the game begins, every pitch, every hit ball, becomes important. During a game a player doesn't have much time to react. Often there isn't time to think-instinct has to take over. Hitting has always come natural to me; but I try to concentrate and to relax, both at the plate and in the field. It's important for a player to be aware of what's going on around him. In baseball, the little things count, and it's often these 'little things' that can mean the difference between winning or losing a ballgame."

Bob Robertson was a key figure in the two final crucial games of the '74 pennant race vs. Chicago. On October 1, his 8th-inning pinch homer gave the Bucs a dramatic 6-5 come from behind win and the following day he reached first on a passed ball after striking out, allowing the tying run to score in the game which eventually was to give the Bucs the Eastern Division flag.

Dave Parker

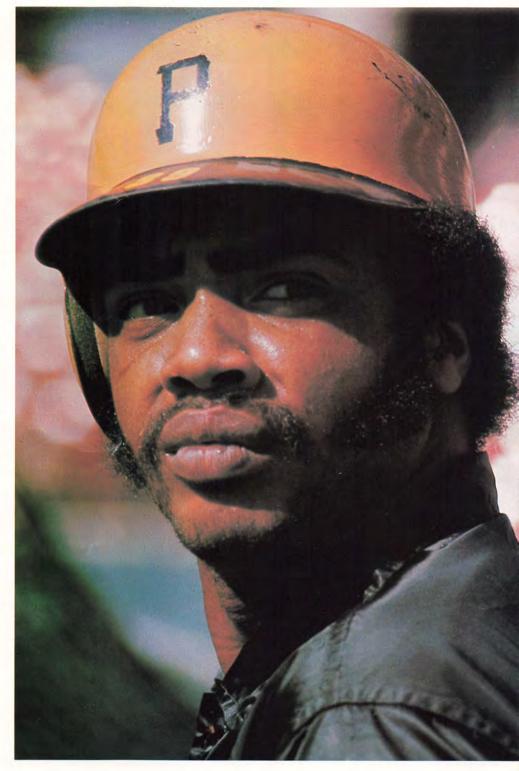

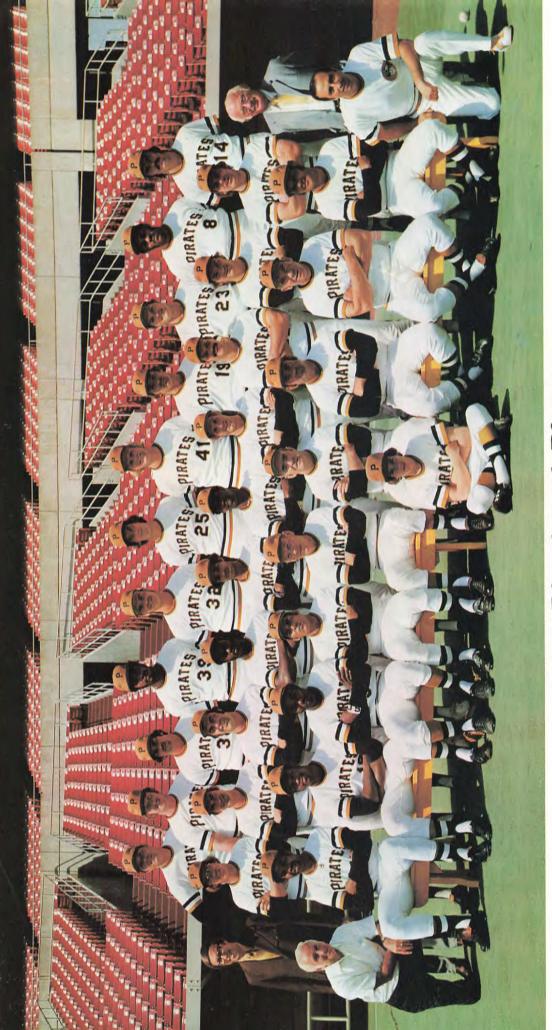

Outfielder . . . 6-5 . . . 225 . . . Born on June 9, 1951 in Cincinnati, Ohio . . . Resides in Cincinnati . . . Single . . . Bats left . . . Throws right.

"He can hit and with power that only a 6'5" 225 pound body would permit. He can run, despite his size, at a speed few professional baseball players can equal. He can throw, not at the level of excellence of his other skills, but still better than many" . . . Bob Smizik, Pittsburgh Press.

Dave Parker is an outstanding athlete with exceptional speed. Despite being hobbled by a pulled hamstring muscle which twice relegated him to the disabled list in 1974, he continued to show improvement in all facets of the game. Dave closed the season with a .288 average and he hit his first major league grand slam in a pinch-hitting role on September 8th against the Expos. One of the top young players in the game today, Dave Parker should be a fixture in the Pirate lineup for many years to come.

"Sometimes being so big has its disadvantages. I think people have a tendency to expect a lot more from a big man than from a smaller player, but my style of baseball is hitting line drives. I have never been known as a homerun hitter but I think the fans expect me to hit a homer everytime I come to the plate. But that's not my game. I don't think size is a factor where running is concerned. I'm very agile for my size and I have good speed. My main concern is to improve my defensive play."

1974 Pittsburgh Pirates

Manny Sanguillen

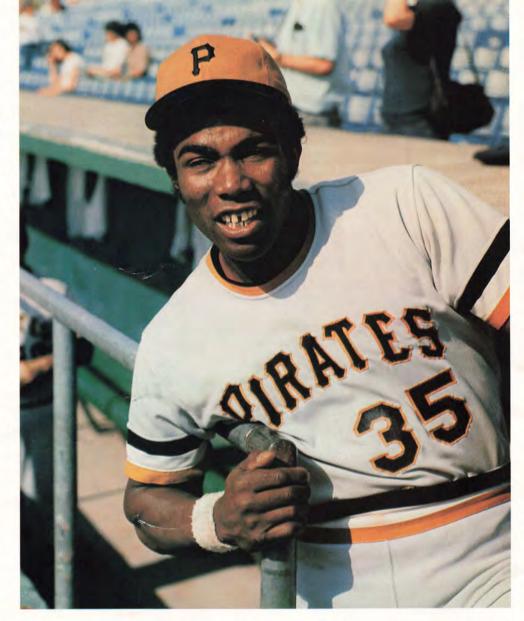

Catcher . . . 6-0 . . . 189 . . . Born on March 21, 1944 in Colon, Panama . . . Resides in Pittsburgh . . . Married Kathy Sue Swauger on December 6, 1970 and has one son, Manuel, Jr. (3) . . . Bats right . . . Throws right.

"Sangy has pride. He wants to be in there playing as much as he can and he wants to be the very best at his position. Where would we be without him? I'd hate to guess." . . . Dave Giusti.

They called him the "Iron Man." Manny Sanguillen played in 53 straight games at the end of the '74 season and in 93 of the Bucs' final contests, starting 90. Manny finished with a .287 batting average, setting career highs in hits, games, at bats and runs scored, while maintaining his lifetime batting figure at .300. Twice in one game he threw out the swift Lou Brock attempting to steal. With Duffy Dyer available to spell Manny on occasion in 1975, the smiling Panamanian could have an even more productive year.

"When I was a boy growing up in Panama, I was always in trouble. Then one day a German missionary, Elmer Fher, talked me into attending his Bible School. The main attraction for me there was his sports program, so I agreed and from then on my life was changed. I had participated in track, soccer, basketball and boxing in high school, and at one time I thought I would box professionally; but as I grew older and bigger my weight increased from 126 to over 180 and I knew I would have trouble boxing at that weight. At Bible School I was introduced to baseball at the age of 18. I played all positions and I seemed to have a natural instinct for the game, so much so that Mr. Fher arranged for me to play for other teams in the area. I played only a few months before I signed a contract with the Pirate organization, after being scouted by Herb Raybourn. I was really crude at first, but he taught me all I know about catching."

Ken Brett

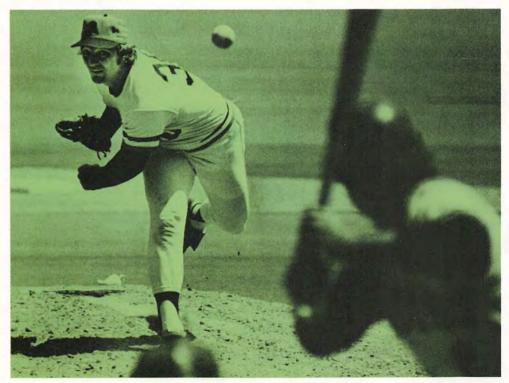

Pitcher . . . 5-11 . . . 195 . . . Born on September 18, 1948 in Brooklyn, New York . . . Resides in Boston, Massachusetts . . . Single . . . Bats left . . . Throws left.

"If I could give one bit of advice to a high school player, I'd tell him to try to develop Ken Brett's temperament. It's a pleasure to watch him compete. He does everything well." . . . Paul Popovich.

The Pirates' Ione All-Star representative in 1974, Kemer was off to a sensational start until the game of August 6 vs. the Mets when he developed a sore left elbow which sidelined him for over a month and ultimately required post-season surgery. His 13-9 record, however, tells only half the story, for he led all major league pitchers in hitting with .310 and he has played the last two seasons without committing a single error.

"Being an All-Star is a big thrill-the highlight of anybody's career. The win was nice and something I'll never forget, but the ovation before the game kind of overwhelmed me. It was the biggest thrill I've ever had in the game so far. You know, I have three brothers. I'm 26. My older brother John is 28. Bobby is 24 and the youngest, George 22, now plays for Kansas City. The funny thing about it is that although all four of us played professional ball at one time or another, my mother and father are very non-athletic. It was just something we did on our own and were never pushed into. I can't remember my father ever picking up a bat or glove to demonstrate anything to us and his knowledge of the game is strictly from a spectator's view-point."

PROMOTION DAYS Sunday, June 1—Cap Day Sunday, Sept. 21—Fan Appreciation Day (Prize Day)

Go for the Gusto. Or don't go at all.

"The fan has the lot to choose from, to cast his being upon whomever he selects." . . . Baseball the Beautiful by Marvin Cohen.

Bob Moose

Pitcher . . . 5-11 . . . 195 . . . Born on October 9, 1947 in Export, Pennsylvania . . . Resides in Pittsburgh . . . Married Alberta Duriscoe on February 10, 1968 and has a daughter, April (3) . . . Bats right . . . Throws right.

Bob's appearance at Spring Training is a testimonial to his courage and fortitude. A victim of near-tragedy last May when a blood clot under his right shoulder caused his arm to swell to twice its size, Bob underwent remedial surgery and then began the long road back. He began throwing lightly in August and he participated in the Pirates' Instructional League camp at Bradenton, Florida in September. A healthy Bob Moose can be a lifesaver in 1975 either as a starter or reliever.

"It's hard to explain what went through my mind last May 29. I had been throwing in the bullpen, and I went in the clubhouse to change sweat shirts when I noticed my right arm swelling to almost twice its normal size. I was rushed to the hospital for emergency surgery for what I learned later was a blood clot which had formed underneath my right shoulder. The initial prognosis was that I'd be out for the remainder of the season. Then the doctors became more indefinite and I began to fear that my playing days might be over at the age of 27. Baseball had been part of my life ever since I could remember. I was scared.

I followed the prescribed weight program carefully and soon I began lobbing the baseball. But the real test came last Fall in Bradenton, Florida where I was pitching in the Winter Instructional League. I had to get answers to several important questions. Would I have to change my pitching style? Could I still cut loose with the fast ball and break off a sharp curve? I'll never forget the elation I experienced the day I realized I could throw hard once again.

I really feel that the operation which also removed three layers of scar tissue has actually given me even more mobility than I've had the past several years. I fully expect to be an even better pitcher in 1975."

Larry Demery

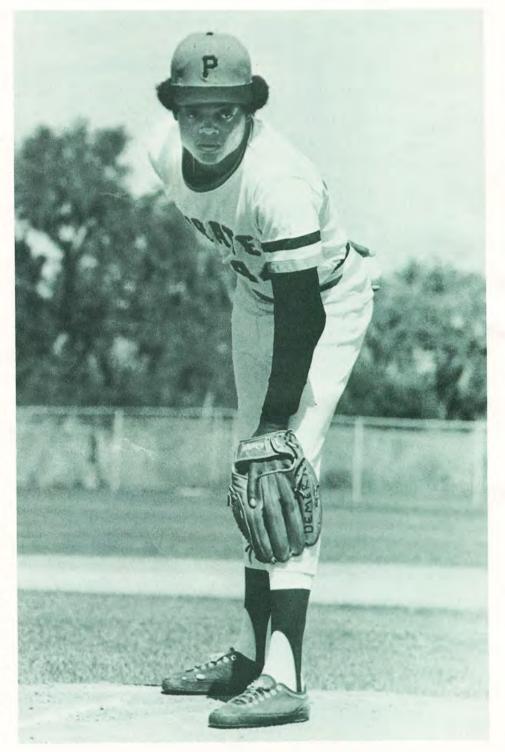

Pitcher . . . 6-0 . . . 170 . . . Born on June 4, 1953 in Bakersfield, California . . . Resides in Los Angeles, California . . . Single . . . Bats right . . . Throws right.

"Somebody once told me to sit back and observe—just keep my mouth shut and listen. I learned a lot by doing just that." . . . Larry Demery.

Larry Demery's poise and dedication in his first major league season belie his youthful age of 21. Used mostly as a spot starter in 1974, he dropped his first four starts but came on like gang-busters the second half of the season, winning six decisions in a row. Primarily a fast-ball pitcher, Larry will remember his first major league game on June 1st when he struck out four of the six Cincinnati hitters he faced in a relief role.

"All my life I've wanted to be a major league pitcher. My father was a pitcher, too. He played in the California and Mexico Negro Leagues. He was a great pitcher to me, and I looked up to him. He pushed me sometimes and made me go harder, even when I didn't want to be pushed, but I stuck with it and hung in there. I love the game so much that I just want to play baseball the year around. That's why I went to Venezuela to play winter ball. I want to keep on working on those pitches that I am not having too much success with: and if I work real hard at it and get everything together, I know I can be a 20game winner for a long time. That's what I want to be-a 20-game winner. I want to be looked up to. If I have any kids, I want them to be proud of their father like I was of mine."

THERE COULD BE A FORD IN YOUR FUTURE

Seven 1975 Fords will be given away to lucky fans throughout the season according to the following schedule: May 27 (Pirates vs. Houston Astros) GRAN TORINO SQUIRE STATION WAGON; June 27 (Pirates vs. Chicago Cubs) PINTO 3-DOOR RUNABOUT; July 13 (Pirates vs. San Diego Padres) MUSTANG II; August 1 (Pirates vs. New York Mets) F-100 EXPLORER; August 31 (Pirates vs. Houston Astros) GRAN

TORINO; September 21 (Pirates vs. St. Louis Cardinals—Prize Day) LTD AND GRANADA. Winners will be selected following the games on the above dates, and confirmed by mail or phone. Get your tickets now, or register without obligation at the Advance Ticket Window at Three Rivers Stadium or at the Pirate downtown ticket office at G. C. Murphy's on Fifth Avenue.

Sam McDowell

Pitcher...6-6...214... Born on September 21, 1942 in Pittsburgh, Pennsylvania... Resides in Monroeville, Pa.... Married Carol Ann Beisgen on February 19, 1962 and has two children, Deborah (12) and Timothy (9)... Bats left... Throws left.

"The man on the mound pitching with his assortment of 'stuff'. The catcher crouching, giving the sign. The batter 'digging in', bat on shoulder, waiting. Here's where eternity focuses." . . . Baseball the Beautiful by Marvin Cohen.

He came to camp unsure of a job, but his unfulfilled ambition was to pitch for the Pirates. Once known as one of baseball's premier fast ball pitchers, his 2424 strikeouts are good for 10th place on the All-Time Major League List just 62 behind Don Drysdale, and

his average of 8.9 strikeouts per game is second only to Sandy Koufax. Signed by the Indians at 17, Sam made his major league debut a year later, and he has hurled in recent years for the

Giants and the Yankees. A native Pittsburgher, "Sudden Sam" has now become "Smart Sam" and his dream is to take the mound at Three Rivers Stadium in a Pirate uniform.

Security. It isn't a game.

A sports event is a serious matter to Pinkerton's. This business-like attitude is part of our professional approach as the nation's oldest and largest security firm. Stadiums, tracks, and

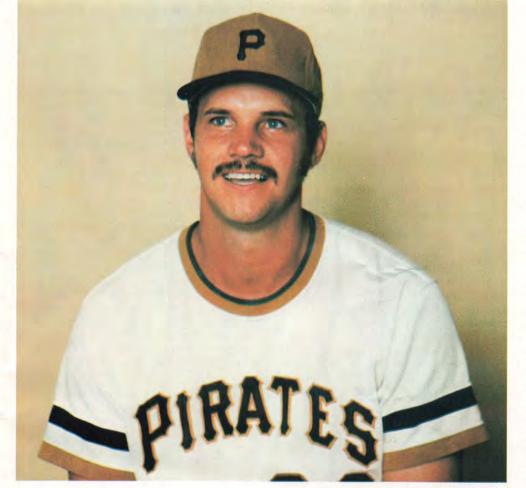

"Fortune 500" companies alike employ our services to protect their personnel and property.
With 100 offices in the U.S. and Canada, we're near you now.

Pinkerton's the professionals

Pittsburgh Office — Parkway Center, Pittsburgh, Pa. 15220

Richie Zisk

Outfielder . . . 6-1 . . . 205 . . . Born on February 6, 1949 in Brooklyn, New York . . . Resides in Pittsburgh . . . Married Barbara Louise Boice on May 27, 1969 and has a son, Kevin (2 mo.) . . . Bats right . . . Throws right.

"That young man is a model hitter. If you'd want to show a kid how to hit, you'd offer Zisk as an example. His shoulders, his head . . . nothing moves. He has perfect balance when he strides, and he doesn't chase bad balls." . . . Sparky Anderson, Manager, Cincinnati Reds.

Richie Zisk's hitting was one of the real bright spots of the Pirates' 1974 season. His .313 average tied him for 5th among National League hitters and he led the club with 100 RBI's and 16 game-winning hits. He fell one game short of tying Mel Ott's 45-year-old record of getting at least one RBI in 11 consecutive games. Danny Murtaugh feels that Richie is one of several Pirate hitters who have the potential to lead the National League in hitting.

"Hitting varies everytime at bat. If you come up with men in scoring position, a pitcher's going to be a lot more careful with you than he would be if there were no base runners. If a pitcher has been successful against you with a particular pitch (let's say it's a breaking ball), and you come up with men in scoring position, if he gets two strikes on you the chances are you're going to see that breaking pitch. If the batter gets ahead of the pitcher-maybe 2 and 0 or 3 and 1, the hitter can afford to guess. This is when the long ball generally comes. I make it a practice to look at the centerfielder when I step into the batter's box. If he's to the right of second base and out towards right center I have a pretty good idea that they're going to pitch me away. But if he's shaded toward left, I can ordinarily expect to be pitched inside. I think Al Oliver put it best. He said, 'Some people pray to hit the ball but I hit the ball and then pray.' You can't steer the ball. Very few guys have that good bat control to hit the ball where they want to consistently. I just try to make good contact and let them fall where they may."

Richie Hebner

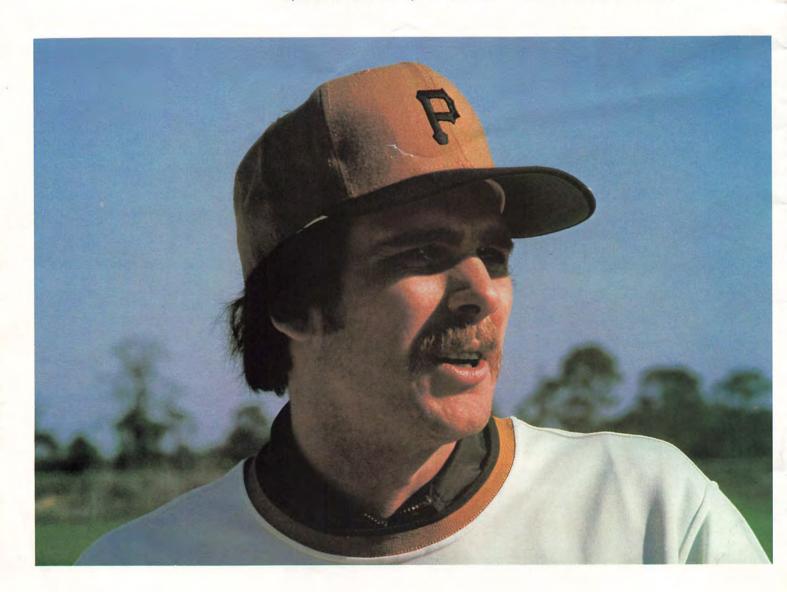

Third Baseman . . . 6-1 . . . 200 . . . Born on November 26, 1947 in Boston, Massachusetts . . . Resides in Pittsburgh . . . Single . . . Bats left . . . Throws right.

"God gave me a gifted ability. As a result, I've met a lot of nice people. But I don't think of myself as a superstar. I try to keep a level head. I try to keep out of the limelight."... Richie Hebner.

Richie Hebner made numerous offensive contributions to the Pirate cause in 1974 as he hit .291, poled 18 homers and drove in 68 tallies. Ten times he drove in the winning run and he set personal major league highs for atbats, runs and hits. He raised his lifetime batting average to a lofty .287. Danny Murtaugh feels that Richie is another Pirate who could take the batting title.

"I have reached the point in my career when I honestly feel that I have the experience and ability to lead the

league in hitting. Of course, winning is the important thing, and not individual goals. I have been very lucky to have been in the big leagues six years and to have been on a winner four times. Very few players today have been as fortunate. If I'm going to win a batting title. I know I'll have to be more selective of the pitches I swing at. Occasionally I have a tendency to overswing and I must overcome this bad habit. I know the pitchers in the league fairly well and that should help. People say I have quick wrists and this permits me to wait longer on the pitch than most hitters. I guess my wrist development goes back to my having played so much hockey as a boy. Yes, I think I could lead the league in hitting but the more important thing to me is to wear another World Series ring."

Bob Prince

Nellie King

In the Booth and...

"Thanks to the long-drawn-out season, decisive contests of the last two weeks of a close pennant fight are often the most exciting, drama-laden, theatrically pulsating, bitterly scrapped-for pressure-popping and truly climactic games known to baseball." ... Baseball the Beautiful by Marvin Cohen.

Bob Prince and Nellie King will again handle the Pirate play-by-play broadcasts on KDKA in 1975.

Bob's announcing career began in 1941 and six years later he teamed up with Rosey Rowswell to do the Pirate broadcasts. A graduate of Oklahoma University, he also attended Pitt and Stanford as well as the Harvard Law School for two years.

One of the most colorful and knowledgeable broadcasters in the business, Bob has been the undisputed "Voice of the Pirates" since 1952. His broadcasting activities have spanned many

sports at both the collegiate and professional level, including football, basketball, golf, hockey, boxing, swimming and diving.

A tireless and energetic worker, Bob devotes much of his time to civic-minded and charitable work. Two of his most rewarding moments occurred in 1972 when thousands of his admirers turned out for "Bob Prince Night" on July 28 at Three Rivers Stadium and later in the year when Roberto Clemente presented him with the silver bat he won in 1961 for his first of four batting titles.

Nellie King became a member of the Pirate broadcasting team in 1967 following radio work in Kittanning and Latrobe, Pa. and six years as Sports Director of WHJB in Greensburg, Pa.

An ex-pitcher, Nellie broke into proball in 1946 and saw service with the Pirates as a relief pitcher from 1954-57, compiling a 7-5 career record until an arm injury forced his retirement.

A fine student of the game, Nellie is adept at giving in-depth analyses and insight. He also serves as the Director of the Pirates' Speakers' Bureau during the off-season and he handles the Pirates pre and post-game radio shows.

Tony Bartirome

John Hallahan

In the Clubhouse

The Pirates are equally fortunate in having an extremely competent and dedicated team "behind the scenes". Trainer **Tony Bartirome** can identify with the ailing athletes. He was the Pirate first baseman in 1952, when he established a club record by not

(*) Denotes League Lead	ership											

grounding into a single double play during the entire season. Tony played professionally for 11 years and he coached for the Pirates' AAA Columbus (Ohio) affiliate, becoming the Bucs' trainer in 1963

Equipment manager John Hallahan has been on the job at Forbes Field and Three Rivers Stadium for over 30 years, starting as the visiting club batboy in 1941. John's responsibilities now include maintaining the Pirate locker room, packing and shipping all the equipment to and from Spring Training and throughout the season, and constantly providing the players with clean, well-fitting uniforms.

Team physician, **Dr. Joseph Finegold** has been administering to Pirate players and to the Pirate family for 28 years. A native Pittsburgher and a graduate of the University of Maryland, "Dr. Joe" is on the staffs of Presbyterian, Montefiore and Allegheny General Hospitals, and he is a professor of oral surgery at the University of Pittsburgh's School of Dental Medicine. He was recently selected as president of Major League Baseball's Physicians' Association.

There has been a John Fitzpatrick on the professional baseball scene for well over 50 years. The Bucs' Traveling Secretary has the huge responsibility of transporting the ballclub from city to city, a duty which runs the gamut from hotel arrangements to buses and airplanes; from player meal money to visas and passports; and from players' tickets to rooming lists. He began his baseball career as equipment manager with the California Angels in 1961, and 1968 saw him with the Oakland A's before moving on to the Pirates the following year. His father, John Fitzpatrick, has been a player, coach (Pirates, 1953-54-55 and Braves, 1958-59), manager and scout-most recently for the Pirates in the California area.

Les Banos, the Pirates' team photographer, is not only responsible for many of the photos appearing in this publication, but he is also involved with the day-to-day video-taping of the players' batting and pitching for coaching and analyzing purposes. He brings to his job an impressive background in television and camera techniques, products of his years of experience at WTAE, WIIC and WQED.

Dave Giusti

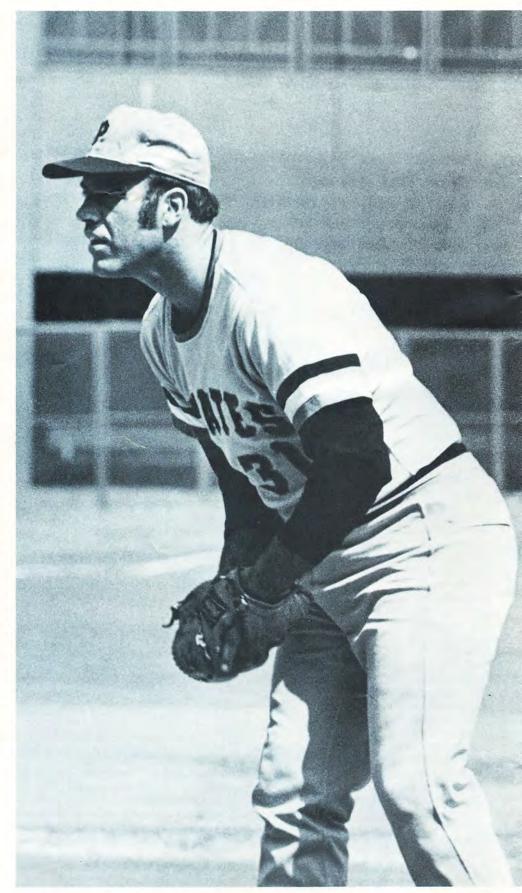

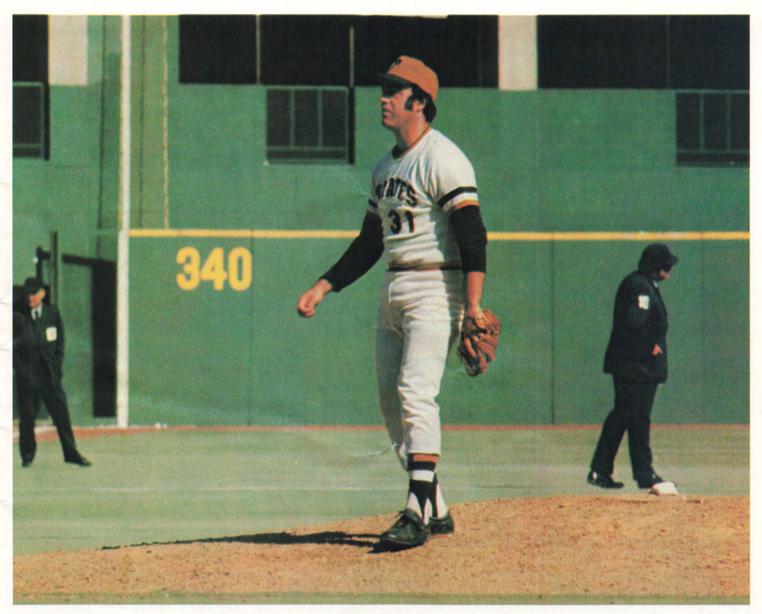

Pitcher . . . 5-11 . . . 205 . . . Born on November 27, 1939 in Seneca Falls, New York . . . Resides in Pittsburgh . . . Married Virginia Lee Frykman on October 26, 1963 and has two daughters, Laura (10) and Cynthia (6) . . . Bats right . . . Throws right.

"I knew Dave would come around. The cream always rises to the top." . . . Ken Brett.

Off to an unusually slow start in 1974, Dave was given a rare opportunity to start a game on June 18—his first start since 1970 after 255 consecutive relief appearances; and he combined with Bruce Kison for a 2-0 whitewashing of the Dodgers. He then returned to his normal habitat—the bullpen and resumed his role as one of the best firemen in the game today. He set a National League record last season with his 110th career save. Dave underwent post-season surgery on his right elbow.

"When I come in from the bullpen with the bases loaded or with the winning run on base, I'm naturally a little bit anxious about the situation. I think about the hitter I'll be facing and what his strengths and weaknesses are and what he might be looking for against me; and I select my pitches accordingly. Sometimes I have to go strength against strength. My strengths are a hard fast ball and a palm ball. If I'm throwing these two well, it doesn't really make that much difference who the hitter is. I'm not afraid to throw a fast ball to Johnny Bench even though he's a fast ball hitter because there are a lot of good fast ball hitters in the league and I'm up here because I have a certain amount of ability; and I have to go with my best. Of course, I have to pitch to spots. I want to throw a ball that won't be hit out of the ballpark-low and away, for instance, to a right hand hitter. Or, I'm thinking that if I go with a palm ball, that I'd better not hang it."

Ramon Hernandez

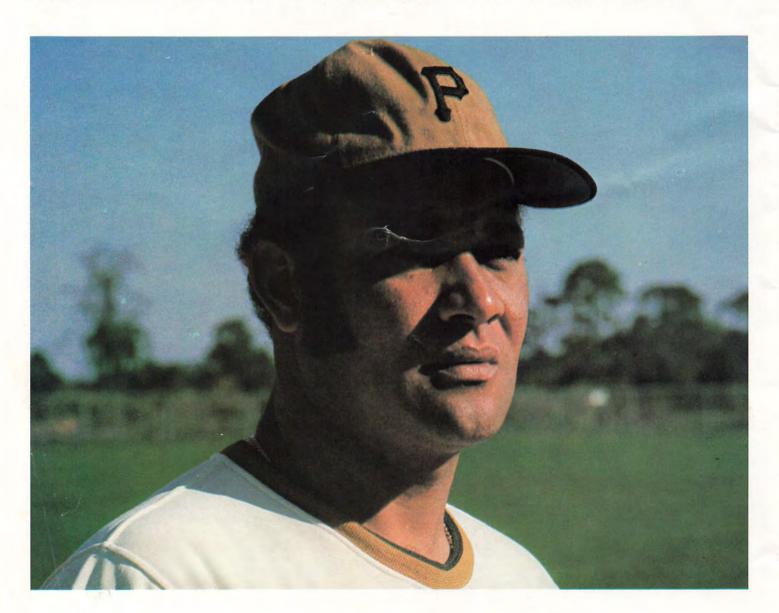

Pitcher . . . 5-9 . . . 189 . . . Born on August 31, 1940 in Carolina, Puerto Rico . . . Resides in Carolina . . . Married Myriam Ortiz on January 6, 1960. His son Ramon's age is 13. He also has a daughter, Vilma 14 . . . Bats left and right . . . Throws left.

"It doesn't bother me to enter the game in pressure situations. I just know I have a job to do and I do my best." . . . Ramon Hernandez.

Ramon Hernandez again had an ERA (2.75) that was among the League's best, and it never was above 3.00 any-time during the season. The crafty screwballer's 58 appearances were second only to Dave Giusti's 64 on the ball club, and in his four seasons with the Bucs, his earned run average is a super 2.20 for 180 games.

"When I was 16 or 17 people told me

that I pitched like a veteran. They said I used good judgment and that I knew how to set-up hitters. I had a good fast ball then, but it wasn't until I got older that Juan Pizarro taught me how to throw a screwball, which is usually a good pitch against right-handers. I use a variety of deliveries and angles to keep the batter off-balance—overhand, three-quarters, sidearm—and I've been fortunate to have an arm that responds quickly so that I don't need much time to warm up. I've always been a good competitor—I hate to give up a homerun, even in batting practice."

Bruce Kison

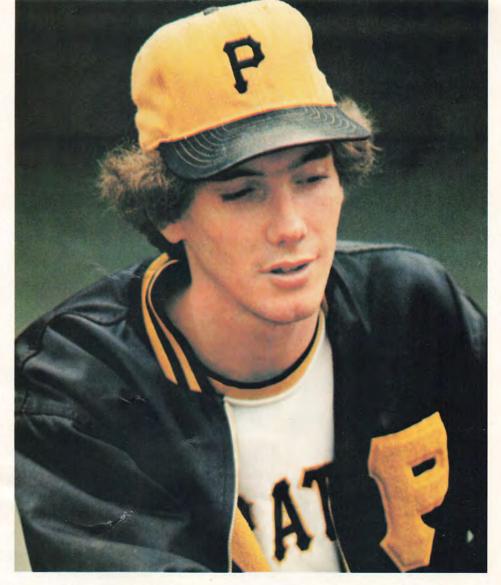

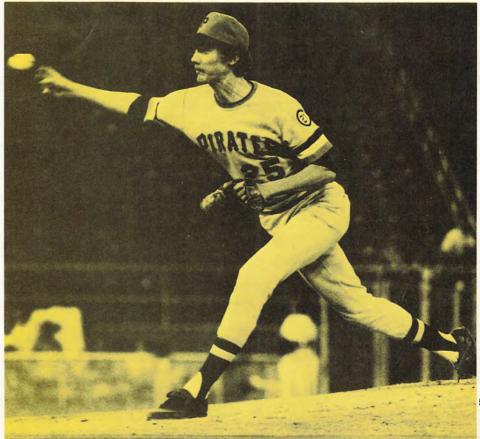

Pitcher . . . 6-4 . . . 175 . . . Born on February 18, 1950 in Pasco, Washington . . . Resides in Pittsburgh . . . Married Anna Marie Orlando on October 17, 1971 and has one daughter, Jennifer (2) . . . Bats right . . . Throws right.

"There they are, the greatest of their era, doing the best they can. And you're judging them, and you're immersed in it! It's the baseball bargain of a lifetime." . . . Baseball the Beautiful by Marvin Cohen.

Bruce Kison appeared in 40 games for the Bucs as a starter and reliever in 1974—by far the most games of his professional career. His nine wins equalled his previous major league high, but even more important was his apparent recovery from the arm problems which plagued him in 1973. Bruce won two critical games down the stretch last season and his 4-0 record and 20 scoreless innings in post-season play are indicative of the way Bruce reacts to the pressures of major league baseball.

"During my baseball career, I have been a starter and a reliever, but I prefer to be a starting pitcher. The role of a relief pitcher is much more difficult, because there is more instantaneous mental stress by the very nature of the job. The bullpen phone rings, you get up and start throwing, and before you know it you're in the game. It is so much more difficult to prepare oneself. As a starter in rotation you have the opportunity to pitch and then to rest four days during which time you can prepare yourself physically and mentally so that you reach your peak every fifth day. When you can prepare yourself in advance, it is much easier to cope with the pressure."

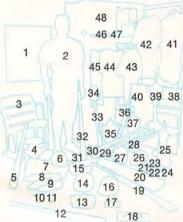

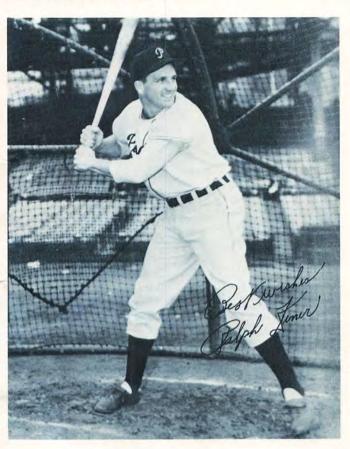

Hall of Fame

The Baseball Hall of Fame in Cooperstown, New York is Baseball's Mecca. On display here are the artifacts and articles telling the history of the game—the evolution of the baseball, the bat, the uniform and other baseball equipment, motion pictures, television and tape recordings, oil paintings, photographs, famous trophies and a separate "wing" for the Hall of Famers. Depicted on the preceding page are some of the Pirate mementoes on display at the Hall of Fame, which is open seven days a week the year round.

1-Medcalf painting of Honus Wagner and boy; 2-Wax figure of Roberto Clemente; 3—Seat from Forbes Field; 4—Trophy awarded champion 1901 Pirates by Businessmen's League of Hot Springs, Ark.; 5-Bat used by Willie Stargell while hitting record 11 home runs in April of 1971; 6-7-8-9-Cap, uniform, socks and shoes worn by Lloyd Waner; 10-Baseball from Cliff Chambers' no-hitter of May 6, 1951; 11-Ball from Harvey Haddix' perfect game of May 26, 1959; 12-Lloyd Waner bat; 13-Burleigh Grimes glove; 14-Cap worn by Bob Moose during no-hitter of September 20, 1969; 15-Lloyd Waner glove; 16-Cap worn by Dock Ellis during no-hitter of June 12, 1970; 17-Baseball and ticket from first World Series game played at night, October 13, 1971; 18-Rings awarded Pirate world champions of 1925-1960-1971; 19-20-Gun and gun case owned by Fred Clarke; 21-22-Baseballs hit by Dale Long for his record-setting seventh and eighth home runs in as many games, May 26-28, 1956; 23-Ball with which Paul Waner made his 3,000th hit while with Braves, June 19, 1942; 24-Medallion awarded Paul Waner as National League's MVP in 1927; 25-Trophy given Paul Waner after being named Most Popular Pirate in 1937; 26-First batting helmet worn in major leagues in 1952; 27-Jack Chesbro's glove; 28-Bat with which Kiki Cuyler made winning hit in final game of 1925 World Series; 29-Bat used by Pie Traynor in 1925 World Series; 30-Rabbit Maranville bat; 31-Ball with which Roberto Clemente accounted for his 1,273rd RBI, tying club record, June 19, 1972; 32-Bat Clemente used in making his 3,000th hit, September 30, 1972; 33-Bat with which Max Carey collected 1,059 hits with Pirates from 1920 to 1925; 34—Carey's glove; 35—Trophy awarded Champion 1909 Pirates by Railroad Men of Pittsburgh; 36-Fred Clarke bat; 37-Trophy presented to Rabbit Maranville at testimonial dinner given him by Pittsburgh Sports Fans on May 23, 1935; 38-Chair from Clemente's locker; 39-George "Honey Boy" Evans Trophy won by Honus Wagner in 1908 as majors' leading hitter; 40-Framed box score and story of Haddix' perfect game against Milwaukee, May 26, 1959; 41-Fred Clarke uniform circa 1910-1915; 42-Uniform worn by Honus Wagner as coach in early 1940s; 43-Fred Clarke uniform from 1925 coaching days; 44-Wagner uniform from minor league days; 45-Wagner's last uniform; 46-Ball autographed by Wagner; 47-Bat used by Wagner early in his career with Pirates; 48-Wagner locker.

Ralph Kiner

Ralph Kiner will join Baseball's elite in the Hall of Fame in Cooperstown, New York this summer, but perhaps only Pittsburgh fans can fully appreciate what this great homerun hitter meant to the Game and to the City. He was "Mr. Baseball" in Pittsburgh for eight seasons as fans came to Forbes Field hoping to see the Kiner specialty. He led the major leagues in homers seven times, more even than Babe Ruth, who did it six times. He is one of only nine major leaguers to hit at least 50 homers in a season, and he did it twice. He hit 54 homeruns in 1949, the second highest in National League history. (Hack Wilson swatted 56 in 1930). And Ralph's home run-at bat percentage is the second best in major league history.

On Draft or in Cans - Here at Three Rivers

Stoney's Beer

It's like....comin' home!

Catcher . . . 6-0 . . . 195 . . . Born on August 15, 1945 in Dayton, Ohio . . . Resides in Phoenix, Arizona . . . Married . . . Bats right . . . Throws right.

"I pinch hit a home-run my first at bat at Shea. It was off Don Shaw of Montreal. I was scared to death. I was at second base before I realized, 'hey', this is the big leagues" . . . Duffy Dyer.

Duffy's post-season acquisition from the Mets' gives the Pirates a much-needed commodity—an excellent receiver and a good handler of pitchers who can spell Manny Sanguillen behind the plate. Himself a Mets regular at times during the past few years, Duffy hit .471 as a pinch-hitter for New York in 1974 (8 for 17). He holds the Mets' club record for the most homeruns hit in a season by a catcher—8 in 1972—the same year that he led National League catchers with 12 double-plays.

"Most ballplayers are more concerned about their offensive play-batting average, RBI's, homeruns-but I've stayed in the big leagues because of my defensive ability. A catcher, especially, must be above-average defensively or he will hurt the ballclub. Throughout my career I've worked as much on defense as offense, and because of this concentration I've developed the reputation of being a better than average catcher, but not a great hitter. The Mets' organization was always pitcher-oriented, and so they worked more with their catchers too than most clubs. Here, surrounded by good hitters, I'll be thinking "hitting" too. This year I'll be catching as much batting practice as possible because I have to familiarize myself with an entirely new pitching staff. Of course, I know something about the Pirate pitchers from playing against them, but the better I get to know them and their repertoire of pitches, the better job I can do for the Pirates."

Jerry Reuss

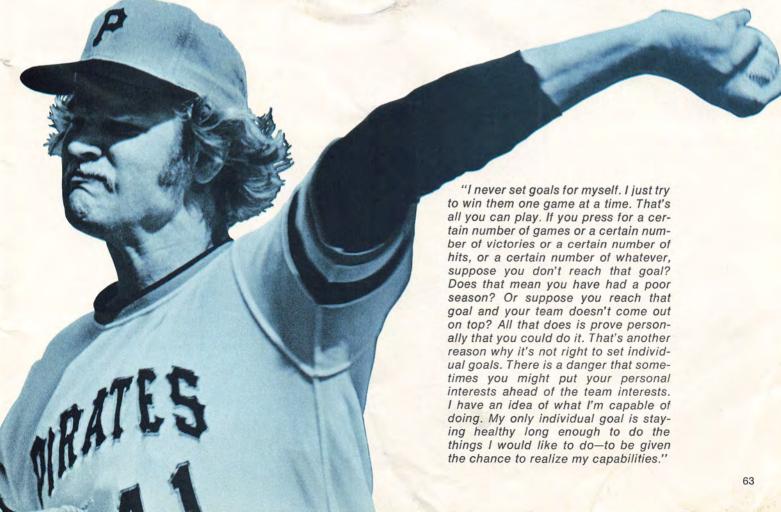

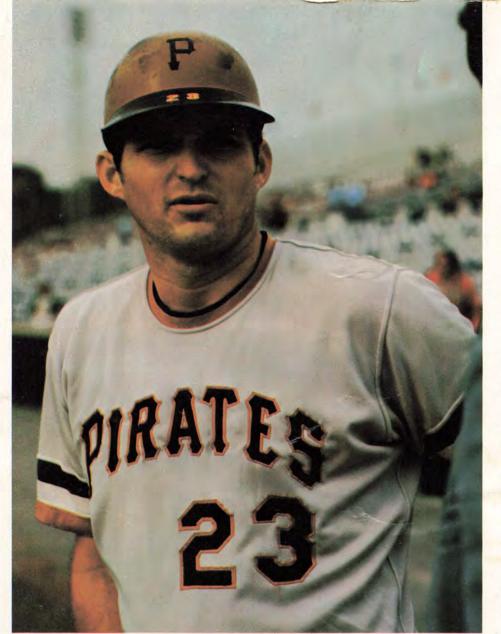

Pitcher . . . 6-5 . . . 210 . . . Born on June 19, 1949 in St. Louis, Missouri . . . Resides in Santa Barbara, California . . . Married Ann Wright on February 14, 1971 and has a daughter, Sarah (4 mo.) . . . Bats left . . . Throws left.

"He has one of the best fastballs in baseball. He also has one of the better curve balls in the league, and when he is getting it over, he's practically unbeatable." . . . Don Osborn, Pirate pitching coach.

Jerry Reuss was the Pirates' top winner in 1974 with a 16-11 record—his best won-lost percentage in his major league career and equalling his 16 wins with Houston the previous season. In addition, Jerry compiled his best ERA ever, and he set a pro career high with 14 complete games.

Ed Kirkpatrick

Firstbaseman-Outfielder-Catcher . . . 6-0 . . . 204 . . . Born on October 8, 1944 in Spokane, Washington . . . Resides in Pittsburgh . . . Married (wife Judy) and has three sons, Jeff (10), Steve (9) and Dave (7) . . . Bats left . . . Throws right.

"Most managers and general managers told me of the big runs he had driven in against their clubs. He was the prime man in the deal. We knew he had versatility and a good bat." . . . Joe L. Brown.

No matter where he plays, Ed Kirkpatrick seems to get the job done in a professional manner, whether it be at first base on a platoon basis with Bob Robertson or an infrequent turn in the outfield. He also had the best bases on balls percentage on the Pirate Club last season and he came through with several key pinch-hits during the crucial

games in September.

"There are lots of times when a ballplayer, including myself, could think a little bit more. I try not to swing at any bad pitches, especially with two strikes; and I look for a certain pitch in a certain spot. I'll also try to hit the ball to a certain area in the field. If the opponents are holding a runner at first, it opens up a big hole defensively, so I'll look for an inside pitch to pull to right field. I often take pitches with no-one on base to get an idea of what the pitcher is throwing. I look for certain pitches until I get two strikes and then I just try to make contact. The need to be mentally alert applies also when the batter becomes a base runner. On long flies with less than two outs it's often a good idea to go back to first and tag up rather than automatically break for second. I know that 999 times out of a thousand the ball is going to be caught, so why not tag up and take second if the ball is hit deep enough or if the outfielder is a little lax? It could mean winning 2 or 3 more games a year and 2 or 3 games just might make the difference in the standings."

Pittsburgh Brewing Company, Pittsburgh, Pa.
